<p>Recommendation:</p> <ol style="list-style-type: none"> 1. Majority of the grape growers were unaware about safe disposal of pesticide containers, which leads to serious environmental hazardous i. e, soil, air and water pollution. To overcome on these problems, pesticide manufacturers should have the buyback of empty container policy to ensure the proper disposal of empty containers. 2. Manufacturers should provide easily readable literature in bold letters or QR code or YouTube URL details on pesticide containers which includes information about safe use of pesticides. 	2024
